Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 2-9 and 14-16 considered unpatentable for the reasons indicated below: Claim 2 has a question of indefiniteness. The indicated allowability of claims 14-16 is withdrawn due to the unpatentability of one or more claims.

Allowable Subject Matter

2. The indicated allowability of claims 14-19 and 25-27 is withdrawn in view of the newly discovered reference(s) to Heki et al. USPN 5906008 and Coenen et al. US Patent Application Publication 2002/0000291. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites the limitation "each of the first ear panels" in line 22. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 14-19 and 25-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Heki et al. USPN 5906008 in view of Coenen et al. US Patent Application Publication 2002/0000291. As to claim 14, Heki provides a conventional disposable absorbent article having a topsheet, backsheet, and core as claimed (Figures 1-3). Heki does not disclose indicia as claimed. Coenen et al. discloses indicia on the outer surface (Figures 4 and 5). Such indicia could obviously align with an anatomic feature of the user, such as the stomach. While the claim sets forth "internally visible serviceable indicia", such indicia has not been specifically claimed as being in any particular configuration or location on the disposable article. As such,

"internally visible serviceable indicia" could read on the indicia being visible "internally" in a room.

Allowable Subject Matter

7. Claims 23 is allowed. The following is an examiner's statement of reasons for allowance: The overall claimed structure an instructional serviceable indicia comprising graphics of characters wearing the disposable article and illustrating the configuration of the article during the first fit and the second fit is neither anticipated nor rendered obvious by the prior art of record.

8. Claims 2-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. are allowed. The following is an examiner's statement of reasons for allowance: As to claim 2, the overall structure of an absorbent article having ear panels with indicia combined with a crotch portion with indicia is for providing proper alignment of the article about the wearer is neither anticipated nor rendered obvious by the art of record.
